Contracting Capabilities

anticipate, analyze, act

company introduction

TRIUNE is an innovative, dynamically integrated Defense Contractor that prides itself in exceeding customers' expectations. TRIUNE is headquartered in Dallas, Texas with offices in El Paso, Shreveport, Seattle, and the Washington D.C. area. We offer a full spectrum of innovative construction, disaster response, and energy services to meet the ever-changing needs of our customers. Because of our unique mix of quick-response, vast reach, local know-how, technology, and innovation, we have quickly become a significant player throughout the regions we serve.

Customer satisfaction is what permits us to thrive in this business. For this reason, we are extremely proud of our recent selection as an IDIQ contractor to NASA's Johnson Space Center in Houston, TX. TRIUNE was able to successfully navigate the stringent requirements and challenges of the Space Center, particularly in the areas of past performance, safety and quality control. This emphasis on performance, safety and quality is what we endeavor to bring to all of our customers. We are also extremely honored to be chosen as one of only 3 First Responder Prime contractors selected by FEMA to assist with the Hurricane Rita relief efforts.

While the depth and breath of our service might indicate otherwise, we are in fact a **Small Business, Certified 8(A), SDB, and HubZone concern.**

our services

our services

disaster response and recovery

TRIUNE has earned a reputation for providing premiere rapid-response capabilities and expertise in times of domestic and international crises, including recent natural disasters such as hurricanes, tornadoes, and earthquakes.

TRIUNE utilizes its project management expertise and large network of subcontractors, vendor and collateral relationships to assist those in need in times of crisis. TRIUNE has consistently demonstrated its commitment to work successfully in hazardous and/or remote environments to positively affect the lives of those involved.

TRIUNE is experienced and ready to assist federal, state, and local customers in meeting the varied challenges that disaster brings. We have successfully partnered with local communities, labor, and relief agencies such as FEMA, DoD, USACE, the State of California, Texas, and Louisiana to ensure a timely, cost-effective, productive, and safe response in times of crisis.

How? Captive Network of Capital Resources

TRIUNE has strategically formed teaming relationships with companies who provide needed resources during time of disaster, primarily in the Gulf Coast, Pacific Coast and Mid-Atlantic regions of the country. Our widespread network of resources includes companies specializing in heavy equipment, cargo, trucking, ice and water, modular building, building supplies, etc.
